Tips for a virtual Thanksgiving

Turkey Tips

- Save a seat for your laptop: have your loved ones join in on the feast virtually (zoom, facetime, skype)
- Cater thanksgiving to your home & your loved ones so you can be dining on the same delicious dishes (uber eats, doordash, grubhub)
- Send materials for a simple craft, such as a Thankful Turkey.
- Write and send thank you cards to friends and family so they know of your gratitude despite the physical separation.
- Do a recipe swap! Make Grandma Janet's homemade roll recipe and send cousin Dave your green bean casserole recipe.
- "Watch" football together: tune in to your favorite teams at the same time via facetime! You can still yell at the refs on your respective devices.
